INVITATION TO PARTICIPATE IN VII INTERNATIONAL SCIENTIFIC CONFERENCE

SOCIAL SECURITY SYSTEMS IN THE LIGHT OF DEMOGRAPHIC, ECONOMIC AND TECHNOLOGICAL CHALLENGES

Ladies and Gentlemen,

We cordially invite you to participate in the VII International Scientific Conference, titled „Systemy zabezpieczenia społecznego wobec wyzwań demograficznych, ekonomicznych i technologicznych. Social Security Systems in the Light of Demographic, Economic and Technological Challenges,” which will be held on September 28-29, 2022 at the Faculty of Management Engineering, Poznań University of Technology. This year, the event will take place in a hybrid form. The organizer of the conference is the Department of Business Economics, Investments and Insurance operating at the Faculty of Management Engineering at the Poznań University of Technology.

Due to the interdisciplinary character of the conference, the invitation is addressed to representatives of social sciences, humanities and technology, as well as to representatives of financial institutions, state institutions and local government.

The aim of the event is to identify the greatest challenges to social security systems (in particular pension systems and long-term care for the elderly) and the labor market (especially in terms of the aging population). We believe that the meeting will be an excellent opportunity to discuss and exchange knowledge, views and experiences on the current trends in reforming social security systems around the world and adjusting labor market conditions to the needs of elderly people.

More information and details about the conference can be found in subsequent announcements, as well as on our website: mke2022.put.poznan.pl, where registration for the event will be launched soon.

Please feel invited

on behalf of the Organizing Committee of the Conference

Chairman Dr. hab. Marek Szczepański, Prof. PP

INVITATION TO PARTICIPATE IN VII INTERNATIONAL SCIENTIFIC CONFERENCE

SOCIAL SECURITY SYSTEMS IN THE LIGHT OF DEMOGRAPHIC, ECONOMIC AND TECHNOLOGICAL CHALLENGES

KEYNOTE SPEAKERS:

dr hab. Agnieszka Chłoń-Domińczak, prof. SGH

Vice-Rector for Science and Director of the Institute of Statistics and Demography at SGH Warsaw School of Economics. Member of the Committee on Demographic Studies of the Polish Academy of Sciences, and leader of the Polish research group at SHARE 50+ (Survey of Health, Ageing and Retirement in Europe). In 2008–2009, she served as an undersecretary of state in the Polish Ministry of Labour and Social Policy; she was also a member of the Supervisory Board of the Polish Social Insurance Institution (ZUS) and a member of the Polish Financial Supervision Authority. In 2007–2009, she was a Vice Chair of the Social Protection Committee (SPC) of the Council of the EU. In 2010–2017, she managed projects at the Educational Research Institute (IBE) in preparation of the implementation of the Polish Qualifications Framework. Her areas of specialisation include demography, pension systems, the labour market, social policy, health and education.

Dr Kamila Bielawska, Uniwersytet Gdański

Dr Tomasz Jedynak, Uniwersytet Ekonomiczny w Krakowie

Dr Antoni Kolek, Instytut Emerytalny w Warszawie

Dr Sylwia Pieńkowska-Kamieniecka,

Uniwersytet Warmińsko-Mazurski w Olsztynie

Dr Marcin Wojewódka, Instytut Emerytalny w Warszawie

INVITATION TO PARTICIPATE IN VII INTERNATIONAL SCIENTIFIC CONFERENCE

SOCIAL SECURITY SYSTEMS IN THE LIGHT OF DEMOGRAPHIC, ECONOMIC AND TECHNOLOGICAL CHALLENGES

THE AIM OF THE CONFERENCE:

The aim of the event is to identify the greatest challenges to social security systems (in particular pension systems and long-term care for the elderly) and the labor market (especially in terms of the aging population). We believe that the meeting will be an excellent opportunity to discuss and exchange knowledge, views and experiences on the current trends in reforming social security systems around the world and adjusting labor market conditions to the needs of elderly people.

RECIPIENTS:

- Scientists (representing various scientific disciplines) dealing with the issues of social security, the labor market and the living conditions of the elderly,
- Representatives of financial institutions offering pension products and other financial services related to long-term saving and investing,
- Representatives of state and local government institutions of the social security system.

INVITATION TO PARTICIPATE IN VII INTERNATIONAL SCIENTIFIC CONFERENCE

SOCIAL SECURITY SYSTEMS IN THE LIGHT OF DEMOGRAPHIC, ECONOMIC AND TECHNOLOGICAL CHALLENGES

CONFERENCE TOPICS:

1.The challenges to social security systems with particular emphasis on pension schemes

1.Short and long-term demographic and economic challenges to social security systems

2.Current trends in reforming social security systems around the world

3.The results of reforms of social security systems and the question of their measurement

4.Additional and supplementary pension systems - design, products, efficiency

5.Responsible investing and ESG as a trend in investing pension funds

6.Cultural aspects for the functioning and reform of social security systems

7.Retirement awareness and decisions taken by the participants of the pension scheme. The role of education and counseling in pension systems

8.The possibilities of using behavioral economics in reforming pension systems

9.Impact of the COVID 19 pandemic on the functioning of social security systems

10.Other issues related to social security systems.

INVITATION TO PARTICIPATE IN VII INTERNATIONAL SCIENTIFIC CONFERENCE

SOCIAL SECURITY SYSTEMS IN THE LIGHT OF DEMOGRAPHIC, ECONOMIC AND TECHNOLOGICAL CHALLENGES

CONFERENCE TOPICS:

II.Challenges to the labor market

- 1.Today and tomorrow of labor markets in the aspect of an aging population - opportunities and challenges for employees and employers
- 2.The impact of the fourth industrial revolution on the nature of jobs and social security
- 3.Additional pension as an instrument of human resource management in an enterprise
4. New technologies and innovations as instruments for improving communication between social security institutions and beneficiaries
- 5.Logistic aspects of shaping the working and living conditions of the elderly
- 6.Cyber security and counteracting digital exclusion of the elderly
7. Age management
- 8.Other issues related to the labor market.

INVITATION TO PARTICIPATE IN VII INTERNATIONAL SCIENTIFIC CONFERENCE

SOCIAL SECURITY SYSTEMS IN THE LIGHT OF DEMOGRAPHIC, ECONOMIC AND TECHNOLOGICAL CHALLENGES

INFORMATION FOR THE AUTHORS:

The submitted texts will be published (after receiving positive reviews) as:

- an article in the journal "Wiadomości Ubezpieczeniowe" (70 points according to the Ministry of Education list) - 2 articles;
- an article in the Scientific Journals of the Poznań University of Technology, the Organization and Management series (40 points according to the Ministry of Education list) - 5 articles;
- a chapter in a scientific monograph published by the Publishing House of the Polish Economic Society (20 points according to the Ministry of Education list).

Note: the qualification of papers for scientific journals and monographs is conducted by the Conference Program Council with the support of the organizing committee. The authors will be informed individually about the decision by 5 September 2022.

Detailed guidelines for authors are available on the conference website.
